

A man and a woman are seated at a small table in a workshop-like setting. The woman is on the left, wearing a dark top and a necklace, looking towards the man. The man is on the right, wearing a dark shirt, looking back at her. They are surrounded by various lighting fixtures, including a large hanging lantern on the left, several small pendant lights, and a desk lamp. In the background, there are shelves with various objects, including a wire mesh cage and some glassware. The overall atmosphere is warm and creative.

**THE ILLUMINATION PROJECT** is a six-week study that captures a candid (and often hilarious) conversation between Joy Eggerichs and her father, Dr. Emerson Eggerichs (author of the best-selling marriage book Love and Respect), as they tackle the following topics:

**MARRIAGE, DATING, SINGLENESS**

**MALE-FEMALE RELATIONSHIPS**

**FAITH**

**LIFE'S WOUNDS**

**AND MUCH MORE . . .**

**DON'T SETTLE FOR THE STATUS QUO.  
ASK QUESTIONS. GET ANSWERS. TOGETHER.**

## **WHO IS IT FOR?**

**EVERYONE.** (No, really! While this study was created for 18- to 35-year-olds, it's a great tool for mentorship and bringing together young and older, men and women, single and married.)
